John Mcl, Department of Psychology

May 31st, 2020 - The history of narrative psychology can be construed in different ways given that psychologists conduct their research most often through language by either interacting with their subjects in experimental conditions or as clients in therapy. Narrative accounts can be identified within many psychological schools and practices.

april 24th, 2020 - Despite impressive advances in recent years with respect to theory and research, personality psychology has yet to articulate clearly a comprehensive framework for understanding the whole person. In an effort to achieve that aim, the current article draws on the most promising empirical and theoretical trends in personality psychology today to articulate 5 big principles for an integrative'

Using narrative therapy in my practice

May 10th, 2020 - As I am using narrative therapy in my practice these days I thought I would let you know a little bit about it. Narrative therapy is different from traditional therapies and psychological perspectives as it is one of the therapies that stems from the postmodern approach of social constructivism.
